The Torpedo Boat Whipple, One
of the Oldest in the Service,
to Be Rebuilt.

(Special to The Times-Dispatch.)
NORFOLK, VA., January 10.—The big
schooner Maggie M. Keough, of Perth
Amboy, N. J., Captain Tilton commander,
which arrived here to-day, brought in W.
Morgan, mate of the schooner Robert
McIntock, of Baltimore, and the cook of
the latter, whom she took off their schooner,
which she found in distress ten miles
northeast of Chincoteague, Va. The men
were brought here for medical treatment,
the mate's ankle having been badly hurt
by an accident at sea.

The McIntock, which was bound south
with a cargo of steel rails, was caught
in a storm and was almost miraculously
saved from destruction. All her
sails, with the exception of a jib, were
lost in the gale, and for a week the
schooner drifted about at sea off this
coast.

The tramp steamer Frankfort came
along and attempted to tow the McIntock,
but failed, and proceeded to Philadelphia,
whence she will send a tug.
Meantime the life-savers of Chincoteague
have boarded the McIntock and will stay
by her till assistance comes. She is leaking,
and the crew was exhausted by pumping to
keep her afloat.

The Keough brought hard coal from
New York.

The Whipple will be rebuilt at the
navy yard here. She is one of the oldest
torpedo boat destroyers in the service,
and she was sent here for repairs with
her boiler and deck plates removed. She
will be in the yard a year, if the work
is not countermanded.

Indicted for Murder.
Captain Thomas Harvey died at the
St. Vincent Hospital this morning, as the
result of a fractured skull. He was em-
ployed on a schooner laden with lumber,
and when he was killed on the 13th of
October by Captain Hobson H. Hickman,
the commander, for not attending to his
duties, an altercation arose, which ended
in a fight. Captain Harvey approached
and threatened Captain Hickman with
a knife, and the latter defended himself
with the captain's bar, with which he
crushed the skull of Captain Harvey.
Captain Hickman lingered till this morning.
Captain Hickman is out on bail,
but will be re-arrested. It was supposed
that Captain Harvey would recover, and
therefore Captain Hickman was admitted
to bail. He declares that he acted in
self defense, and that he would have been
wounded or killed if he had not killed
Captain Harvey, who was bent on killing
him. Captain Hickman will be indicted
for murder.

SHIP HIGH AND DRY.
Five-Masted Fannie Palmer to
Be Pulled Off the Sand.

(Special to The Times-Dispatch.)
NORFOLK, VA., January 10.—The five-
masted schooner, Fannie Palmer, which
went ashore twelve miles south of
Cape Henry yesterday morning, lies high
and dry on the beach, where she was
left by the receding tide. The schooner
is in good condition and she can be saved.
Her owners have made a contract with
the New York Wrecking Company, which
will bring wrecking tackle from Phila-
delphia and begin work at once in an
effort to get the Palmer off the beach.
Captain Nash, of the Palmer, will retain
half of the crew and keep steam up in
the vessel's donkey engines until the
wreckers arrive.

Alabama Not Hurt.
(Special to The Times-Dispatch.)
NORFOLK, VA., January 10.—The
damage to the battleship Alabama is not
so great as was feared as the result of
her collision with the battleship Kentucky
in the harbor of New York on Sunday.
She is at the navy yard, where ten days
will be required for repairs. One of the
officers declares that the bumping she
received injured her forward gun port
on the port side and scraped off the
paint. He says: "We rigged up wooden
doors for the gun port and came out of
New York harbor in something more than
a gale, without experiencing any trouble
on the way down, but the deck watch
was fierce on the men till after we had
arrived in Hampton Roads."

Prescribes Them and Has Cured
Many Cases Where Other Formulas
Have Failed—Dr. Fisher Says:

CUTICURA REMEDIES POSSESS TRUE MERIT

"My face was afflicted with eczema
in the year 1897. I used the Cuticura
Remedies, and was entirely cured. I
am a practicing physician and very
often prescribe Cuticura Resolvent and
Cuticura Soap in cases of eczema, and
they have cured where other formulas
have failed. I am not in the habit of
endorsing patent medicines, but when
I find remedies possessing true merit,
such as the Cuticura Remedies do, I am
broad-minded enough to proclaim their
virtues to the world. I have been practicing
medicine for sixteen years, and must
say I find your Remedies A. No. 1.

CUTICURA—THE SET, \$1. Complete Treatment for Every Humor from Pimples to Scrofula

Bathe the affected parts with hot
water and Cuticura Soap, to cleanse
the surface of crusts and scales and
soften the thickened cuticle; dry,
without hard rubbing, and apply
Cuticura Ointment freely, to allay
itching, irritation, and inflammation,
and soothe and heal; and, lastly, take
Cuticura Resolvent Pills to cool and
cleanse the blood. A single set, costing
but one dollar, is often sufficient to
cure the most torturing, disfiguring,
itching, burning, and scaly skin, scalp,
and blood humors, with loss of hair,
from infancy to age, when all else fails.

IS IT SMALLPOX? Many Around South Hill Have Disease in Mild Form.

(Special to The Times-Dispatch.)
SOUTH HILL, VA., January 10.—Three
flags hang in solemn warning from
many homes here to-day, and a rigid
quarantine has been ordered as a result
of the consultation of the county Board
of Health in regard to this smallpox situation
here.

The town authorities, in co-operating
with the county board, have closed the
public schools and are taking every pre-
cautionary measure to prevent the dis-
ease from spreading further. No new
cases are reported, and the persons now
under quarantine have about recovered.
A very socially inclined victim, who was
made to stay at home yesterday, climbed
the top of a near-by tree, from which
his elevation he greeted his nervous
neighbors with a cheerful "hello o',
there!"

While for some reasons this malady,
which is now found to be in many parts
of the county, is termed smallpox, yet
there is much difference of opinion on
the part of the physicians as to its real
nature. Some are inclined to call it the
Cuban smallpox, in modified form, while
others hold the chickenpox theory. One
doctor said yesterday: "I don't know
what it is, and I guess I have been practicing
medicine long enough for this statement
not to injure me."

It is now known that the disease has
been here and in the county since last
fall, in which time over two hundred per-
sons have contracted it. Most of these
were negroes and did not call in a phy-
sician. Few died, and many did not stop
work on account of it.

A large number of the negroes work-
ing here were stricken during the first
of the winter, and it was only discov-
ered a few weeks ago, when the first
white case occurred.

BIG COMPANY TO HARNESS ROANOKE

Will Erect Large Electric Power
Plant at the Falls Below
Chase City.

ONE WAY TO AVOID BIGAMY

Lady Forties New Clerk for Spe-
cial and Private Informa-
tion.

(Special to The Times-Dispatch.)
CHASE CITY, VA., January 10.—A
company with a capital of over two mil-
lion of dollars has purchased the falls
of Roanoke River in Mecklenburg at
Eagle Point, about ten miles below
Clarksville, and proposes to establish an
electric plant to furnish power and lights
to towns, mills and factories within a
radius of fifty or more miles in Virginia
and North Carolina.

A dam forty feet high will be built,
and lands above liable to be damaged
will be bought. The preliminaries had
been arranged and work will soon be
commenced. The chief of the United
States engineer force, when the Roanoke
River was surveyed, about twenty years ago,
reported the water power at the above
place was of incalculable value.

The newly elected clerk, H. F. Hutche-
son, has taken charge of his office, and
he readily grasped the duties incident to
his position. While I was in his office
Monday he had in his mail a letter
from a lady who had a complaint of mar-
riage, and she wrote him if her ex-husband
had ever been previously married,
and if so, when his wife died, and also
ascertain his ancestry. She made
no inquiry about his property. Clerk
Hutcherson had no idea such investiga-
tions would be required of him. Whether
he replied or not I do not know, but
he told him he would have to do many
things he would not like to do."

The Standard Oil Company is putting
up a large tank near the depot here
for oil distribution, said to hold seven
thousand gallons.

The postoffice receipts here for last
quarter were \$1,441.03. A considerable in-
crease over previous quarter. The post-
master's salary is \$1,700, rent of office
in Town Hall building \$250, and an as-
sistant is paid \$33 per month.

PURELY TECHNICAL. Man Discharged Because Mary- land Did Not Concede.

(Special to The Times-Dispatch.)
FREDERICKSBURG, VA., January 10.—
The case against Thomas Johnson, for
unlawful fishing in the Potomac River,
was dismissed in the Circuit Court of
King George county this week, Judge T.
R. B. Wright presiding for Judge Mason.
The charge upon which Johnson was ar-
rested depended upon the passage of a
similar action by the Legislature of
Maryland before it became operative, and
the Commonwealth failed to show that
Maryland had a similar law, so the court
instructed the jury to find the defendant
not guilty.

federacy, with the view of providing a

The National Bank of Fredericksburg
has elected the following officers: H. H.
Wallace, president; Judge A. W. Wallace,
vice-president; J. Arthur Taylor, cashier;
H. Lewis Wallace, teller.

MARSH CASE.

Oyster Boat Captain's Trial and
Others Continued.

(Special to The Times-Dispatch.)
ALEXANDRIA, VA., January 10.—In
the United States court to-day the case
of Captain William Marsh, of the Ches-
apeake Bay oyster boat Ethel Ruth, in-
dicted for beating and imprisoning one
of his crew, was continued until May, and
set for trial in Norfolk.

The cases of William H. Bosley, (the
Suffolk and Carolina Railway Company
and the Gay Manufacturing Company, in-
dicted for violating interstate commerce
laws, were also continued, and set for
trial in Norfolk. It was stated that Bosley
has a residence in Baltimore, and that
he is prominent in banking and commer-
cial interests there.

(Special to The Times-Dispatch.)
LYNCHBURG, VA., January 10.—The
work of cutting in the new service of the
Southern Bell Telephone Company will
begin to-morrow morning, and when the
work is completed, in thirty days, Lynch-
burg will have the most improved tele-
phone service in the United States, which
has been installed at the cost of \$200,000.
Six expert operators from Richmond
reached here this afternoon to have
charge of the new switchboard while the
service is being changed.

now consul-general in London, is a vis-
itor to Norfolk to-day. Accompanied by
Mrs. Wynne, he is here to see his son,
Captain R. E. Wynne, United States Ma-
rine Corps, attached to the battleship
Alabama, now at the Norfolk navy yard
where they dined this evening. Consul
Wynne said that his mission in this
country is for the purpose of appearing

next man against whom he is to testi-
fy, prior to his departure to Europe is
Beavers, whose trial comes off shortly.

institution.

ASHLAND IMPROVEMENTS

Vital Question of Water and
Sewage Now Under Discussion

(Special to The Times-Dispatch.)

ASHLAND, VA., January 10.—With the
advent of each municipal improvement or
new public enterprise in Ashland the vital
question of water and sewerage comes
up for serious discussion. Those who
have long made their residence here
have become so accustomed to the absence
of water and sewer advantages that it
is hard for them to shake off the lethargy,
but the new element, made up largely
of city people, is becoming more and
more in evidence in Ashland every year.
With every projected improvement this
serious drawback is encountered. The
town itself affords many happy and pleas-
ing features of a suburban life, and, being
a college town, it has exceptional ad-
vantages of society and culture. A party
of Philadelphia capitalists and engineers,
who have been successfully organizing
and establishing small local systems will
soon visit here for the purpose of con-
sidering the opportunity in Ashland for
an up-to-date sewerage and water sys-
tem.

Ashland is located on a table-land or
plateau on a level with the highest church
steeple in Richmond, 272 feet above tide,
with a fall to the north, east and south.
The late Major E. T. D. Myers took a
decided interest at one time in Ashland
as a residential place, and in demon-
strating its exceptional geographical position
for draining, stating that the town is
ninety feet above the track level of the
Richmond, Fredericksburg and Potomac
Railroad, in the center of the South Anna
bridge, which is three miles north of
Ashland, there being a grade of thirty
feet to the mile, and the river is one
hundred feet below the bridge. Ashland
drains into the South Anna River on the
north and to the Chickahominy on the
south, and indirectly into the Pamunkey
River on the east at Sulphur Springs. The
country rises very rapidly west of Ash-
land, and at Goodall's Tavern, six and
a half miles from here, the Blue Ridge
can be easily seen.

An interesting preliminary survey was
made ten years ago by the late Charles
Child, and a very feasible plan was then
conceived.

It is suggested that the lay of the
land for drainage by sewers and for a
supply of water from a central station
and the inevitable growth of the town
offers vast opportunities to capitalists.
It is estimated that an up-to-date water
plant and necessary sewerage system can
be built for less than \$20,000, and the dis-
cussion is now on.

WAS DEAD MAN INSANE.

A Delicate Question Which Court
is Trying to Decide.

(Special to The Times-Dispatch.)
WINCHESTER, VA., January 10.—To
determine whether a dead man was in-
sane prior to his demise is the delicate
point Circuit Judge Thomas W. Harri-
son, of Winchester, will be called upon
to decide for the second time before the
estate of the late George W. Bromley,
Frederick county farmer, can be
settled.

A few years ago, Judge Harrison en-
tered an order to the effect that Brom-
ley was not sane, and, therefore, in-
capable of attending to business affairs,
which were turned over to his wife, Mrs.
E. M. Bromley. To-day suit was en-
tered to compel his estate to pay a
promissory note for two hundred dollars,
which was drawn on the Union Bank
of Winchester by his son, William G.
Bromley, and endorsed by the deceased
before his death, and re-endorsed from
time to time after he was declared to
be of a diseased mind.

It is said to be the first case of the
kind on record in Virginia, and in effect,
George W. Bromley will have to be twice
declared insane before the note can be
paid.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in
Preserving Health and Beauty.

Nearly everybody knows that charcoal
is the safest and most efficient disinfect-
ant and purifier of the body, but few are
aware of its value when taken into the human
system for the same cleansing purpose.
Charcoal is a remedy that the more you
take of it the more you need it, and it
will, simply absorb the gases and im-
purities always present in the stomach
and intestines and carries them out of the
system.

A Buffalo physician, in speaking of the
benefits of charcoal, says: "I advise
Stuart's Charcoal Lozenges to all patients
suffering from gas in stomach and bowels,
and to clear the complexion and purify
the breath, mouth and throat; I also be-
lieve the liver is greatly benefited by the
daily use of the lozenges, but, but few are
aware of its value when taken into the human
system for the same cleansing purpose."

The daily use of these lozenges will soon
tell in a much improved condition of the
general health, better complexion, sweeter
breath and purer blood, and no doubt
of it, that no possible harm can result
from their continued use, but, on the
contrary, great benefit.

A Buffalo physician, in speaking of the
benefits of charcoal, says: "I advise
Stuart's Charcoal Lozenges to all patients
suffering from gas in stomach and bowels,
and to clear the complexion and purify
the breath, mouth and throat; I also be-
lieve the liver is greatly benefited by the
daily use of the lozenges, but, but few are
aware of its value when taken into the human
system for the same cleansing purpose."
